Dear Sir

On Oct 1, 1991 the Childrens Television Act ~~went into effect~~ The sort of programming that this Act was suppose to regulate of the networks and cable television channels has not increased or improved. Childrens television in any measurable way as a parent and child advocate, I see the immediate need to enforce the law. The amount of time children are exposed to television should not promote violent behavior or questionable morals. This should be an opportunity to improve their lives and help them make good choices. ~~This everyone~~ Everyone ~~should~~ must matter. Given due respect. P.A

As a parent I am very concerned about
the condition of children's television. Even
though my children are older (14 + 18) it seems
that children's programs have not improved
in content or quantity since they were
younger. The amount of violence on T.V. in
general has increased & has a negative
~~influence~~ on developing minds & values. I am
asking for enforcement of the Children's Television
Act of 1991. We must do this.

Sincerely,
Stephanie Bland Holbrook, NY 11741

Honorable Reed Hundt,

As a parent I am very disgusted with the programming on T.V. The prime times children watch are the times some of the worst shows are on. I try to watch T.V. with my children, but that is not always possible. I would like to know that when my children turn on T.V they can see suitable T.V for their ages.

There is enough violence on the news, they don't need to see it in their shows. Thanks
